

ABDEL-BARI ALTAHA

Full Stack .NET & Angular Developer

Amman, Jordan | +962 7 9584 1006 | baritaha4@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Full Stack Developer specializing in ASP.NET Core and Angular, focused on building scalable web applications, clean architecture, and high-performance backend systems. Experienced in developing RESTful APIs, implementing repository patterns, and building modern, maintainable frontend applications with a strong emphasis on code quality, separation of concerns, and real-world project delivery.

TECHNICAL SKILLS

- **Frontend Development:** Angular, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap.
- **Backend Development:** ASP.NET Core, C#, REST APIs, Clean Architecture, Repository Pattern, Dependency Injection, DTOs Pattern.
- **Mapping & Performance:** Mapster (Object-to-Object Mapping).
- **Database Management:** SQL Server, PostgreSQL, MongoDB, Entity Framework Core, LINQ, SSMS, Oracle SQL Developer.
- **Cloud & Deployment:** Vercel, Docker, Docker Compose, MinIO Object Storage.
- **Tools & Platforms:** VS Code, Cursor AI, Visual Studio, Swagger/OpenAPI, Postman, Git, Jira, Agile/Scrum, AI-Assisted Development.

SOFT SKILLS

- Problem Solving
- Team Collaboration & Communication

WORK HISTORY

- **Frontend Developer (.NET & Angular) - Ideal Innovation House**
 - Developed Angular applications with modular and scalable architecture.
 - Built real-world projects including dashboards, authentication systems, and reusable components.
 - Integrated backend APIs and handled data flow using HTTP services.
- **Full Stack Developer (.NET, React, React Native) - Excellence Smart Solution**
 - Developed full-stack applications using ASP.NET Core, React, and React Native.
 - Built scalable backend systems and modern frontend interfaces.
 - Worked on real-world production projects with focus on performance and maintainability.
- **Full-Stack Developer (.NET & Vue.js) - Transition Tech**

- Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.
- Maintained clear documentation of system architectures, workflows, and coding standards for reference by other team members.
- Developed conversion and system implementation plans.

EDUCATION

Bachelor: Software Engineering

Jordan University of Science and Technology

PROJECTS (GitHub)

- **Angular E-commerce Dashboard**
- **One Click (E-commerce System)**: Built using Clean Architecture (4-layer structure), Entity Framework Core, Repository Pattern, DTOs, and Mapster for high-performance mapping.
- **AI Data Report Generator**
- **Company Profile (Angular 19)**
- **Portfolio**
- **Logistic Visualizer**
- **Admin Dashboard (Angular 19)**

• TRAININGS, CERTIFICATIONS & CONTINUOUS LEARNING

- Clean Architecture & .NET Advanced Practices (Continuous / Hands-on): Actively practicing, deepening expertise, and building production-grade enterprise projects focusing on advanced separation of concerns, 4-layer architecture, Repository Pattern, and robust backend design.
- ASP.NET MVC - Coders Company
- Microsoft .NET Foundation - Coursera
- Angular Frontend Development - Ideal Innovation House
- Programming Fundamentals - Global Chapter Jordan
- Prompt Engineering - Coursera
- AWS Cloud Practitioner - MDE & Amazon
- HTML, CSS, JavaScript – Orange Academy
