Professional Summary

Full-Stack Web Developer with hands-on experience building real-world, production-ready web applications. Strong background in modern frontend frameworks and robust backend systems, with a focus on clean architecture, performance, and maintainable code. Experienced in Angular, Vue.js, React, PHP, Laravel, and .NET, with a solid understanding of UX principles and scalable system design.

Technical Skills

Frontend

Angular, Vue.js 3, React, TypeScript, JavaScript, HTML5, SCSS, CSS3, Bootstrap

Backend

PHP, Laravel, C#, ASP.NET Core, RESTful APIs, MVC Architecture

Databases

MySQL

Cloud & Tools

AWS (Cloud Practitioner level), Git, GitHub, Linux basics

UX & UI

User-centered design, responsive layouts, accessibility fundamentals

Professional Experience

Full-Stack PHP Developer — Clever Mind

March 2024 – March 2025

- Completed over 30 real-world full-stack development tasks using PHP, HTML, CSS, JavaScript, jQuery, MySQL, and Bootstrap.
 - Built dynamic and responsive web applications with emphasis on clean code, performance, and usability.
 - Implemented CRUD operations, authentication systems, role-based access control, and RESTful API integrations.
 - Worked with MVC architecture, secure form handling, and data validation.
 - Collaborated in a team-based environment using Git to simulate real project workflows.
-

Frontend Developer (Angular) — Ideal Innovation House

January 2025 – June 2025

- Completed hands-on training in Angular (v15+), TypeScript, RxJS, Angular CLI, and component-based architecture.
 - Developed a full-featured E-commerce web application with Admin, Seller, and Customer roles.
 - Implemented authentication, route guards, dynamic dashboards, reusable components, and form validation.
 - Integrated backend services via HTTP and applied best practices for modular and scalable frontend development.
-

Full-Stack Developer (.NET & Vue.js) — Transition Tech

August 2024 – November 2024

- Worked with ASP.NET Core and Vue.js 3 to build full-stack applications.
 - Developed backend APIs and connected them to modern frontend interfaces.
 - Applied clean architecture concepts and improved application structure and maintainability.
-

Education

Bachelor of Software Engineering

Jordan University of Science and Technology

Grade: Very Good

Trainings & Certifications

- Full-Stack PHP Web Development — Clever Mind (Mar 2024 – Mar 2025)
 - Angular Frontend Development — Ideal Innovation House (Jan 2025 – Jun 2025)
 - AWS Cloud Practitioner — MDE & Amazon (Jul 2024 – Oct 2024)
 - ASP.NET MVC — Coder Company (Jan 2023 – Apr 2023)
 - Microsoft .NET Foundation — Coursera (Aug 2024 – Oct 2024)
 - Prompt Engineering — Coursera (Oct 2024 – Nov 2024)
 - Programming Fundamentals — Global Chapter Jordan (Feb 2024 – Apr 2024)
 - Mastering Laravel — Coursera (May 2024 – Jul 2024)
 - HTML, CSS, JavaScript — Orange (Mar 2024 – Apr 2024)
-

Projects (Selected)

- **Admin Angular Dashboard** — Modular Angular application with authentication, route guards, lazy loading, and CRUD workflows.
- **E-Commerce Backend (Laravel)** — RESTful backend with authentication, role management, and database modeling.
- **AI Data Report Generator** — Experimental full-stack project combining frontend and backend technologies for automated reporting.

More projects available on GitHub.

Soft Skills

- Strong problem-solving and analytical thinking
 - Effective communication and teamwork
 - Fast learner with high adaptability to new technologies
 - Good time management and attention to detail
-

Availability: Open to full-time roles, internships, and freelance opportunities
