Professional Summary

Full-Stack Web Developer with hands-on experience building real-world, production-ready web applications. Strong background in backend development, frontend development, and scalable system design, with a focus on clean architecture, performance, and maintainable code. Experienced in .NET, React, React Native, Vue.js, PHP, and Laravel, with solid understanding of API integration, authentication, CRUD operations, responsive UI, and modern application workflows. Targeting Full Stack .NET Developer roles focused on backend development with ASP.NET Core, frontend development with React, and mobile application development with React Native.

Technical Skills

Frontend: Vue.js 3, React, React Native, TypeScript, JavaScript, HTML5, SCSS, CSS3, Bootstrap

Backend: PHP, Laravel, C#, ASP.NET Core, RESTful APIs, MVC Architecture, API Integration

Databases: MySQL, SQL Server, MongoDB, PostgreSQL

Cloud & Tools: AWS (Cloud Practitioner level), Git, GitHub, Linux basics

UX & UI: User-centered design, responsive layouts, accessibility fundamentals

Professional Experience

Full Stack .NET Developer

- Backend development with ASP.NET Core and C#
- Frontend development with React and component-based UI architecture
- Mobile application development with React Native
- RESTful APIs and API integration between frontend, mobile, and backend systems
- Authentication and authorization flows
- CRUD operations and form handling
- Responsive UI implementation and reusable components
- Database connectivity and query handling with SQL Server, MongoDB, and PostgreSQL
- Clean architecture, code maintainability, and Git-based collaboration

Full-Stack PHP Developer - Clever Mind

March 2024 - March 2025

- Completed over 30 real-world full-stack development tasks using PHP, HTML, CSS, JavaScript, jQuery, MySQL, and Bootstrap.
- Built dynamic and responsive web applications with emphasis on clean code, performance, and usability.
- Implemented CRUD operations, authentication systems, role-based access control, and RESTful API integrations.
- Worked with MVC architecture, secure form handling, and data validation.
- Collaborated in a team-based environment using Git to simulate real project workflows.

Frontend Developer (Angular) - Ideal Innovation House

January 2025 - June 2025

- Completed hands-on training in Angular (v15+), TypeScript, RxJS, Angular CLI, and component-based architecture.
- Developed a full-featured E-commerce web application with Admin, Seller, and Customer roles.
- Implemented authentication, route guards, dynamic dashboards, reusable components, and form validation.
- Integrated backend services via HTTP and applied best practices for modular and scalable frontend development.

Full-Stack Developer (.NET & Vue.js) - Transition Tech

August 2024 - November 2024

- Worked with ASP.NET Core and Vue.js 3 to build full-stack applications.
- Developed backend APIs and connected them to modern frontend interfaces.
- Applied clean architecture concepts and improved application structure and maintainability.

Oracle Fusion ADF Developer - Cloud Soft

- Worked with Oracle Fusion ADF and Oracle SQL 12c in Windows and Linux environments.
- Applied the four main Oracle Java ADF concepts: Entity Objects, View Objects, Application Modules, and Task Flows.
- Developed and maintained database queries and data models using Oracle SQL 12c to support enterprise application workflows.
- Contributed to Oracle ADF-based screens, bindings, and business logic integration in Fusion applications.

Education

Bachelor of Software Engineering

Jordan University of Science and Technology

Grade: Very Good

Trainings & Certifications

- Full-Stack PHP Web Development - Clever Mind (Mar 2024 - Mar 2025)
- Angular Frontend Development - Ideal Innovation House (Jan 2025 - Jun 2025)
- AWS Cloud Practitioner - MDE & Amazon (Jul 2024 - Oct 2024)
- ASP.NET MVC - Coder Company (Jan 2023 - Apr 2023)
- Microsoft .NET Foundation - Coursera (Aug 2024 - Oct 2024)
- Prompt Engineering - Coursera (Oct 2024 - Nov 2024)
- Programming Fundamentals - Global Chapter Jordan (Feb 2024 - Apr 2024)
- Mastering Laravel - Coursera (May 2024 - Jul 2024)
- HTML, CSS, JavaScript - Orange (Mar 2024 - Apr 2024)

Projects (Selected)

- Admin Angular Dashboard - Modular Angular application with authentication, route guards, lazy loading, and CRUD workflows.
- E-Commerce Backend (Laravel) - RESTful backend with authentication, role management, and database modeling.
- AI Data Report Generator - Experimental full-stack project combining frontend and backend technologies for automated reporting.
- More projects available on GitHub.

Soft Skills

- Strong problem-solving and analytical thinking
- Effective communication and teamwork
- Fast learner with high adaptability to new technologies
- Good time management and attention to detail

Availability: Open to full-time roles, internships, and freelance opportunities
